DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.

Election/Restrictions

2. Newly submitted claims 11-20 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The originally filed claims pertain to a system and method with an alarm generating means and without logic units or lookup tables.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11-20 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear what constitutes a high priority alarm and what prior art elements do or do not fall within the bounds of this limitation.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Golasarsky 5,891,044 in view of Segalowitz 5,307,818.

7. Regarding claims 1 and 6, Golasarsky teaches conditioning and interpreting circuitry 82 and 300, a real-time evaluator 300, histogram analysis (Col 6 ll. 60 – Col 7 ll. 12) and alarm generator 300, however it does not teach the following claimed limitations taught by Segalowitz: ECG sensors v1-v6.

8. It would have been obvious to a person having ordinary skill in the art at the time of the invention to modify the invention of Golasarsky in view of Segalowitz by adding the electrodes of Segalowitz to the watchband of Golasarsky in order to acquire the ECG data as is suggested in Golasarsky (Col 2 ll. 39-55).

9. Regarding claims 2 and 7, Golasarsky further teaches an RF link (Col 14 ll. 36-47), a motion sensor (Col 8 ll. 14-20).

10. Regarding claims 3-5, Segalowitz further teaches the ecg sensors are in an elastic belt Fig 23, wiring 371 integrated into the belt Fig 23 stretching together with said belt.

11. Regarding claims 8-10, Golasarsky and Segalowitz further teach continuous data acquisition (Segalowitz Col 9 ll. 4-23), data processing (Golasarsky Col 10 ll. 66 – Col 11 ll. 24), performing a classification (Golasarsky Col 10 ll. 66 – Col 11 ll. 24), generating an alarm (Golasarsky Col 11 ll. 39-43).

Conclusion

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
